At your leisure (after final grades are posted if you wish), please fill out both sides of this questionnaire and send via campus mail, snail mail, or email to Tanya Lichtenstein, Department of Chemistry at Mail Code 0378 (tlichtenstein@mail.ucsd.edu) who will collect and tally the responses. Answers to these questions will help me to better serve students the next time the course is offered. My primary goal in teaching a course like this is not to issue grades but to try and enlighten and inspire critical thinking. The extent to which I succeed is only determined by each of you, and no course will ever serve students perfectly. I greatly appreciate your willingness to share with me your candid opinions regarding the following issues, each scored on a five-point scale. Please also fill out the questions on the back side of this page.

1. The pace at which lectures was delivered was:
   1 2 3 4 5
   Too slow About right Too fast
2. The value of lectures in helping you to better understand the topics discussed was:
   1 2 3 4 5
   Of no value About right Very valuable
3. The information content of lectures was:
   1 2 3 4 5
   Overwhelming About right Too sparse
4. The number of slides shown in each lecture was, on average:
   1 2 3 4 5
   Too many About right Too few
5. The average quality of slides used in lectures was:
   1 2 3 4 5
   Horrible OK Excellent
6. The average information content of slides used in lectures was:
   1 2 3 4 5
   Overwhelming About right Too sparse
7. The difficulty of the midterm exam was:
   1 2 3 4 5
   Unreasonably tough About right Unchallenging
8. The length of the midterm exam was:
   1 2 3 4 5
   Unreasonably long About right Too short
9. I would prefer two midterms rather than one:
   1 2 3 4 5
   Strongly disagree Neutral Strongly agree
10. I would prefer a final exam in place of a term paper:
    1 2 3 4 5
    Strongly disagree Neutral Strongly agree
11. Web access to PDF copies of the lecture slides and other documents was:
    1 2 3 4 5
    Of no value Of intermediate value Very valuable
12. The required and supplemental reading materials were:
    1 2 3 4 5
    Of no value Of intermediate value Very valuable
13. I read the required and supplemental reading materials:
    1 2 3 4 5
    Never Sometimes Always
14. The oral presentations by students were a useful exercise:
    1 2 3 4 5
    Strongly disagree Neutral Strongly agree
15. The part(s) of the class I would most like to see changed is/are: ________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

16. Which topic, if any, did you find most interesting or informative? Would you have liked it to be
covered in more depth in one of the lectures?: ________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

17. Which topic, if any, did you find least interesting or least informative? Would you have liked it to
be covered in less depth in one of the lectures or eliminated altogether?: ________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

18. Which topic(s), if any, were not covered in class and would you have liked to have had covered
in a lecture?: __________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

19. Please add any other comments you may wish to share.
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

Thanks and have a great summer wherever you may be spending it!

This questionnaire is also posted on the class web site as a PDF document.
